

REVIEW OF A FOREIGN SCIENTIFIC CONSULTANT
for the dissertation of Nabi Yessimov on the topic:
"Integration processes in the organization of primary health care for the
population of a large city", submitted for PhD degree by the specialty
6D110200 - "Public Health".

Dissertation work done by Nabi Yessimov is devoted to the study of the integration processes in the organization of primary health care for the population of a large city.

With the use of analytical, sociological and mathematical-statistical methods of research, the dissertation work reveals and scientifically substantiates the issues set for the dissertation. The dissertation work contains elements of scientific novelty and fully complies with the requirements for scientific work.

The validity and reliability of the results of the study is confirmed by a sufficient amount of analyzed, both theoretical and practical material, as well as modern methods of analysis.

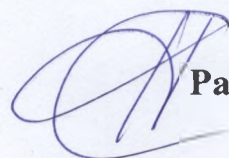

On the topic of the dissertation research, 17 scientific papers were published, including 2 articles in international scientific publications included in the Scopus database, 10 articles in publications recommended by the Committee for Quality Assurance in Education and Science of the Ministry of Education and Science of the Republic of Kazakhstan, 4 in collections and conference proceedings and 1 in specialized medical journal.

As part of the preparation of his dissertation, Nabi Yessimov has demonstrated that he has the necessary knowledge and skills to plan and conduct his own scientific research.

The dissertation research of Nabi Yessimov is a completed scientific qualification work performed on an actual topic, corresponds to a high scientific level, has theoretical and practical significance.

The work leaves a good impression and is a completed study. I believe that Nabi Yessimov deserves to be awarded a PhD degree by the specialty 6D110200 - "Public Health".
